זאם מא" (סנהדרין א"ב)

The prevalence & severity of mental health related issues in our communities today warrant a heightened vigilance, & mandate that we all do our utmost to help alleviate the pain & suffering of so many in our midst.

A few very special & dedicated young women have courageously stepped forward to address the pressing issue of tending to the students in seminary who are suffering from anxiety, depression, & various mental health issues. If proper therapy & care during a girl's seminary year can greatly benefit & enhance her emotional & mental well-being, their future homes & lives will forever be favorably impacted.

And yet, so often the students who can benefit immensely simply do not have the financial ability to cover the costs involved with the appropriate therapy. That is where the wonderful & special TATZMICHU organization steps in to help fund & support their mental health care, & it is indeed a tremendous מצוה to assist them greatly in this important initiative. ואלו כבודו ואלו כבודו.

בס"ד
חודש אדר א' תשפ"ב

To our despondency, an explosive amount of emotional illness has erupted in recent years. To the same extent that it is understood that a person with a physical limitation is unable to function in the normal way, it has become more and more realized that the same is true, and perhaps more so, with mental illness.

The unfortunate stigma that mental illness once had is now somewhat fading, and although it is still misunderstood, it has sadly become a part of our society.

Understanding the reality of mental illness, three young women have taken it upon themselves to ease the plight of those suffering and have set up a system to help offset the expenses of healing. With uncommon and refreshing levels of responsibility, they have found Rabbinical guidance and supervision as well as experienced financial administration.

It is a tremendous mitzvah to help this organization. Each soul helped a literally creates a world; a world that can be full of hope, achievement, and success.

May Hashem bless the organizers and all their supporters that they never suffer from any ill and see only blessing, and may we merit to see all sickness erased from the world with the ultimate redemption.
